

To Whom It May Concern,

It is my pleasure to recommend Mr. Subhajit Hait, who served as a Software Engineer at Lumio AI from January 16, 2025, to June 30, 2025. During his tenure, Subhajit proved himself to be an invaluable asset to our development team, consistently delivering high-quality work across critical AI-driven projects. He excelled not only in developing and testing software modules but also in collaborating seamlessly with cross-functional teams, contributing thoughtful insights, and strengthening the technical foundation of our products.

What sets Subhajit apart is his initiative, adaptability, and leadership mindset. He approached challenges with creativity and precision, often going beyond assigned tasks to propose meaningful improvements. His ability to quickly grasp new technologies, maintain composure under tight deadlines, and support team members with a cooperative spirit made him an outstanding contributor.

I am confident that Subhajit will bring the same dedication, technical expertise, and collaborative energy to any future endeavor, and I recommend him wholeheartedly without reservation

Sincerely,

Kush Jain
